

Kraftwerke | Invest

information & analysis for decision makers

Kraftwerke | Invest is one of the leading publications for new fossil fuelled power plants in Germany. In cooperation with nevento group we report regularly about all important project-specific, energyeconomic and political news and developments.

In every quarterly edition we analyze each project regarding its probability of realization and its presumable commercial commissioning date.

Our goal is to give our readers the most accurate and most current overview about new fossil power plant capacities in Germany based on the best information available and our expertise.

For further information order a sample of our latest newsletter! Free and non-binding.
